SUBJECT RFT Funkwerk Koepenick  
Research on Ultrasonic Communications

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE  
OF THE UNITED STATES WITHIN THE MEANING OF THE ESPIONAGE ACT OF  
U. S. C. 51 AND 52, AS AMENDED. (S) TRANSMISSION OF THE REVELATION  
OF ITS CONTENTS IN ANY MANNER TO AN UNAUTHORIZED PERSON IS PRO-  
HIBITED BY LAW. REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

1. Research on ultra-sonic communications equipment at Funkwerk Koepenick, Landenschlossstrasse 154-158 in Berlin-Koepenick, is in its initial stage. No such research had been undertaken prior to 1953. Early in the year Engineer-chemist (fnu) Winter was transferred to the works and put in charge of research on ultra-sonic communications equipment. Winter came from the Mansfeld Kombinat where he had worked on the development of ultra-sonic devices for the purifying of air. Prior to his Mansfeld assignment, Winter worked in the former Seehydrographischer Dienst, now a Volkspolizei institute.
